EDUCATION

International Institute of Information Technology　　　　　　　　　Bhubanewar, Odisha
Bachelor of technology in Computer Science, 2nd year　　　　　　　*Nov. 2022 – April 2026*

Course Work : Design and analysis, Data Structure, Algorithms, OOPS, MicroProcessor, Digital Electronics, Discrete Mathematics, Python

CGPA: 8.69

EXPERIENCE

Summer Intern and Trainee　　　　　　　　　　　　　　　　March-2024 April-2024
Codsoft Internship (Remote)
- Internship at CodSoft immersed me in web development projects.
- Explored various web technologies and methodologies.
- Cultivated teamwork, communication, and time management skills.
- Grateful for the opportunity to gain hands-on web development experience.

Microsoft Student Ambassador　　　　　　　　　　　　　　　Nov 2023 – Present
Alpha MLSA
- Collaborated with Microsoft to organize tech workshops and events.
- Delivered engaging presentations, promoting Microsoft technologies.
- Created educational content, fostering a supportive learning environment.
- Coordinated hackathons and coding competitions with faculty and student groups.
- Actively engaged in community-building through social media and online forums.

Student Ambassador　　　　　　　　　　　　　　　　　　　Nov 2023 – Present
InternShala ISP　　　　　　　　　　　　　　　　　　　　　　　*Remote*

PROJECTS

HarvestHarbor | *Flask, Python, Streamlit, Tensorflow, HTML, CSS, JS, Etheriun, Sapolia*　　　Mar 2024
- Led the comprehensive development of Harvest Harbor, a pioneering agricultural platform intertwining machine learning models, blockchain technology, and user-friendly interfaces. Orchestrated the integration of four ML models to predict fertilizer usage, recommend crops, detect diseases, and forecast yields. Additionally, crafted a seamless user interface employing HTML, CSS, and JavaScript, facilitating direct connections to government schemes and enabling farmers to buy and sell products securely through blockchain integration.

Personal PortFolio Website | *HTML, CSS, JavaScript, React*　　　　　　　　　March 2024
- Developed and designed a responsive portfolio website using HTML, CSS, JavaScript and React.
- Created an appealing user interface to showcase skills and work achievements.
- Implemented responsive design and smooth animations for optimal viewing across devices.
- Maintained and updated website content regularly to reflect latest projects and accomplishments.

Full Stack E-commerce Website | *HTML, CSS, Bootstrap, JavaScript, React, Node, Express, Strapi*　April 2024
- Engineered a full-stack e-commerce website using HTML, CSS, Bootstrap, React and JavaScript for front-end development.
- Leveraged Node.js, Express.js, and SQL for robust back-end operations, ensuring efficient server-side functionality.
- Integrated Strapi for seamless payment processing, providing a secure and reliable transaction experience.
- Implemented responsive design principles to deliver a smooth user experience across various devices..

TECHNICAL SKILLS

Languages: C/C++, Python, SQL, JavaScript, HTML, CSS
Frameworks: React, Node, Express, MongoDB, Bootstrap, Jquery
Developer Tools: Git/Github, VS Code, Visual Studio, Jupyter, canva, Codeblocks
Others: DBMS, Proble Solving, Project Management, Leadership, Teamwork, Public Speaking, Analytical Thinking

ACHIEVEMENTS

- **CodingNinjas Specialist: 800+ problems solved**
- **Leetcode, rating - 1409 (250+ questions solved)**
- **HACKATHONS : Speeadathon(Top 3), Hackfest (Top 4)**
- **Campus Ambassador of Microsoft, Internshala ISP**
